Homework 4:

The SLOB Slab

CS 444 : *O*perating Systems II, Oregon State University

Group 31

Spring Term, PUT THE DATE, 2018

Prepared by: Kevin Talik, Austin Sanders, and Zach Tusing

1 INTRODUCTION

The purpose of this assignment is to understand the functionality of the SLOB first-fit algorithm and SLOB best-fit algorithm. We will write a program to test the efficiency of both types of memory allocation, and the effects each algorithm has on fragmentation.
